Scientific Climate Systems Welcomes New Team Member, John Pinho

John Pinho joined Scientific Climate Systems in 2012 with over 34 years of experience in advanced technology factory design and process engineering.

John received a B.S. in Chemistry from Worcester Polytechnic Institute and is completing LEED-AP certification. He has held various design and process engineering positions at A123 Systems, Intel, Acoustic Imaging, GTE and National Semiconductor. He has an extensive background in dry room, clean room and laboratory design supplemented with broad construction and operations experience.

John has managed multimillion dollar projects across the globe and has authored papers on Dry Room Design, Utility Modeling & Manufacturing in China. John responsibilities at SCS include: dry room project development, system design, sales and customer relations.

Meet with John when attending the International Advanced Automotive Battery Conference (AABC 2012) from February 7-10 in Orlando at booth #415.
